Dear Representative Harper,

House Bill 16 (PN349) amends the Local Tax Collection Law by adding Section 5.2. Payment of taxes. This amendment restricts tax collector accounts from being opened bearing only an individual's name and restricts the account from being opened using an individual's social security number. It also modifies Section 6. Notices of Taxes by requiring an example of the wording on the real estate tax bill, of how tax payments should be made payable.

The PSTCA has no opposition to this bill as it is currently written.

Kindest Regards,

Sherry B. Labs, President
PA State Tax Collectors' Association
